EDUCATION

Bachelor of Technology in Computer Science (AIML), ***GLA University, Mathura, 81.6%*** June 2026

Intermediate, Army Public School Mathura Cantt, Mathura, ***87.4%*** May 2021

High School, Army Public School R.K Puram, Secunderabad, ***88.6%*** May 2019

TRAINING EXPERIENCE

Machine Learning Intern**, Alpha Innovation** Oct 2025 – Dec 2025
Intern

- Built House Price Prediction models using Linear Regression & Random Forest; performed data cleaning, feature engineering, hyperparameter tuning, and evaluation using RMSE & R^2.
- Developed a Disease Prediction System (Diabetes, Heart Disease, Parkinson's) using Logistic Regression, SVM, Random Forest, optimizing accuracy & F1-score.
- Executed full ML pipeline: data preprocessing, feature selection, model training, testing, and validation in Python.
- Tools: Python, scikit-learn, NumPy, Pandas, Matplotlib.

Job Oriented Value-Added Course, GLA University June 2024 – Aug 2024
Trainee

- Worked on a team project named real time voice modulation which involved changing the characteristics of voice in real time.
- The tools used were HTML, CSS, JavaScript, and Python which were integrated using Flask.
- Key Learning: Integration of python in html pages using flask, handling audio data and authentication and cloud.

PROJECTS

Low-Resource Machine Translation using LoRA Ongoing

- Implementing parameter-efficient fine-tuning (LoRA) for English - Hindi translation.
- Working with IITB & OpenSubtitles datasets, evaluation on Dlores using BLEU.
- Using PyTorch, HuggingFace Transformers, Attention-based Seq2Seq models.

AI-Powered Mental Wellness Chatbot (LLM-based) Oct 2025

- Built an LLM conversational agent using prompt engineering, retrieval, and emotion classification and used Gradio.
- Implemented context-aware responses, text preprocessing, and sentiment analysis.
- Tools: Transformers, Python, NLP, HuggingFace, Colab.

Feed Forward Neural Network on MNIST Sep 2025

- Created a custom feed-forward neural network for handwritten digit recognition using Tensorflow and .
- Achieved 97.75% accuracy, visualized training curves, implemented inference pipeline.

AI automated Virtual Research Assistant: March 2025-Apr 2025

- Build a Virtual Research assistant that uses arXiv api to fetch research papers, LLM for Summarization and Plag Detection.
- Tools: React for frontend, Node and Python for backend and MongoDB for authentication & data storage.
- Implemented sentence embeddings, similarity scoring, text preprocessing, PDF extraction.

SKILLS

Technical:

- **ML/ DL:** Python, PyTorch, TensorFlow, Keras, Scikit-learn, Numpy, Pandas
- **NLP/LLM:** Transformers, BERT, GPT, LoRA, Attention Mechanisms, Sequence Modeling, Tokenization, RAG, Prompt Engineering.
- **Data/ Databases:** SQL, MongoDB
- **MLOps/ Deployment:** Git, Flask/ FastAPI Integration.
- **Other:** Java, HTML, CSS, JavaScript, React js, Node js.

Professional:

- Communication Skills, Problem Solving, Adaptability, Team Work

PROFESSIONAL ACHIEVEMENTS

- Certified in Operations Analyst by bluetick.ai.
- Participated in Level 1: Ecommerce & Tech Quiz of Flipkart GRID 6.0 - Software Development Track.
- Google Cloud Skill Badge – Analyze Speech and Language with Google APIs

CO-CURRICULAR ACTIVITIES

- Coordinated IBM Code Crunch (GLA, September, 2024).
