CAREER OBJECTIVE

Aspiring Software Development Engineer with strong foundations in data structures, algorithms, and full-stack development, seeking to build scalable and efficient software solutions while continuously learning and contributing to high-impact engineering teams.

EDUCATION

Bachelor of Technology in Computer Science with specialization in AIML, GLA University, Mathura (CGPA – 8.68) **June 2026**

INTERSHIP/TRAINING EXPERIENCE

Expora (Tradearch Market Platform Pvt. Ltd.)

Software Development Engineer | June 2026 – Present

- Converted to a full-time Software Development Engineer role after successful completion of a 1-year internship.
- Contributing to the development and enhancement of import-export and international trade platform.

Data Analytics Intern | June 2025 – May 2026

- Developed responsive web applications and dashboard interfaces using **React.js** and **Next.js**.
- Built interactive dashboards with advanced filtering and drill-down capabilities for business intelligence and analytics using **Tableau**.
- Developed AI-driven automation workflows using **n8n**, Zoho MCP, and Gemini AI to automate reporting and enable real-time data insights.
- Led a proof-of-concept evaluation of charting libraries including **Nivo** and **Recharts** to identify a scalable and cost-effective visualization solution.

PROJECTS

Customer Churn Prediction:

- Developed a churn prediction model using logistic regression.
- Applied feature engineering on historical user data to enhance prediction accuracy.
- Implemented model outputs to support retention strategies and customer engagement.

Image Classification using CNN

- Built a weather image classification system using Convolutional Neural Networks.
- Applied deep learning techniques and visualization methods to improve interpretability and performance.
- Collaborated with peers, demonstrating strong teamwork and technical skills.

Gyandhaara: AI-Powered Learning and Accessibility Platform

- Built an AI-driven learning platform with personalized recommendations based on test performance. Integrated speech-to-text, text-to-speech, and AI-driven video content to enhance accessibility for visually impaired and diverse learners.
- TechStack: Python, Scikit-learn, TensorFlow, NLP, OpenCV, Flask/Django, React.js, MySQL, AWS, REST APIs.

SKILLS

Technical :

- **Languages :** Python , Java, HTML, CSS, JavaScript, TypeScript, SQL
- **Frameworks/Libraries :** React.js, Node.js, Express.js, Next.js, Selenium, Beautiful Soup, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, OpenCV, Seaborn, Matplotlib
- **Machine Learning :** Supervised Learning(Regression, Classification), Unsupervised Learning(CNN,RNN), Deep Learning, Natural Language Processing(NLP), Prompt Engineering, Feature Engineering, Generative AI, Reinforcement Learning
- **Tools & Platforms :** VS Code, MATLAB, Canva, Git & GitHub, Linux, Google Colab, Jupyter Notebook, Tableau

Professional :

- Leadership & Collaborative
- Effective Communication Skills
- Problem Solving & Analytical Thinking

CERTIFICATIONS/BADGES

Google : Google Developers Profile Link: [DhruvBansal](#)

- Mastered TensorFlow's 'Program neural networks' pathway and quiz.
- Advanced in object detection, training custom models using TensorFlow Lite and the TensorFlow Lite Model Maker library.

Microsoft : Profile Link: [DhruvBansal-6381](#)

- Mastered machine learning model creation through Microsoft's course, refining hands-on skills and gaining a deep understanding of designing impactful models for real-world applications.
- Explored visual tools for machine learning in Microsoft Azure AI Fundamentals.

MongoDB : Link : [Certificate](#)

- MongoDB Basics- ICT Academy Learnathon : This course helped me a lot to get a basic overview of MongoDB and databases.

Diploma in C

- Have completed an offline certification in computer programming course in C language at SIC CAD HOME (under the guidance of Bhartiya Shiksha & Serv Kalyan Sanstha)

EXTRA/CO-CURRICULAR ACTIVITIES

- Secured second place in SOLVATHON PRESENTATION in IBM ICE DAY(GLA, March 2024).
- Participated in Technical Paper Presentation, IBM ICE DAY(GLA, March 2024).
- Participated in IIT Roorkee's E-Summit Productathon AI, contributing to an innovative AI-driven competitive hackathon environment.
- Accomplished chess competitor with national-level victories, prestigious prizes, and a FIDE rating of 1506. Exhibited strategic acumen and navigated high-pressure scenarios to consistently secure success.
- Mastered over 400+ coding questions on [LeetCode](#), showcasing exceptional problem-solving abilities and advanced proficiency in algorithms and data structures.
- Achieved a CGPA in the top 10% of my batch and top 5% of my specialization, showcasing academic excellence.

DECLARATION

I hereby declare that all the aforementioned information is true to the best of my knowledge.
