EDUCATION

Bachelor of Technology in Computer Science with AIML, GLA University, Mathura, 70.3
Intermediate, New St. Stephen Public School, Agra, 74.6%
High School, New St. Stephen Public School, Agra, 62.1%

June 2026
May 2022
May 2020

PROJECTS

- Gesture Recognition Using CNNs: 2024
 - Developed a robust gesture recognition system using Convolutional Neural Networks (CNNs) to identify and classify hand gestures from images and video frames. This project aimed to enhance human-computer interaction by enabling intuitive communication through hand movements
- AI-Driven Personalized Health Assistant: 2024
 - Developed an AI health assistant providing personalized advice using health records and wearables, enhancing skills in machine learning, NLP, health informatics, and UI design.
- Fraud Detection 2023
 - In this project, I developed a machine learning model specifically designed to detect fraudulent transactions.
- Frontend Clone of Netflix website 2022
 - I designed a Netflix website clone, gaining valuable experience in frontend development and file system architecture.

SKILLS

Technical

Python
Java(concept)
Machine Learning
Frontend web development

Professional

Effective Communication Skills
Team work
Adaptibility

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- NPTEL CERTIFICATION in Software Engineering, Ethics in Engineering ,Environmental Studies, E-Buisness , Management Information System .
- Participated in SME Workshop.
- Certification in Mongo DB.

CO-CURRICULAR ACTIVITIES

- Participated in Sports Event (GLA, September 2024).
- NCC Camp Certificate (GLA, July 2024)

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
