EDUCATION

- **GLA University, Mathura** Aug 2023 – May 2027
Bachelor of Technology in Computer Science CPI: 7.91/10
- **S.R Public School** Jun 2022 – May 2023
Senior Secondary Education (CBSE) 83.8%

EXPERIENCE

- **Python & Machine Learning Intern** Jun 2025 – Aug 2025
Coding Blocks
 - Developed modular applications using Python and Object-Oriented Programming principles
 - Built data processing workflows involving validation, transformation, and reporting
 - Worked with APIs, JSON data handling, and structured data processing
 - Collaborated using Git version control and documentation best practices

PROJECTS

- **Enterprise Employee Management System** Jan 2025 – Present
Java, Spring Boot, MySQL, REST API, Maven, GitHub Actions
 - Developed RESTful APIs for employee, department, and role management using Spring Boot.
 - Implemented CRUD operations with Spring Data JPA and optimized MySQL queries.
 - Built secure role-based authentication and authorization mechanisms.
 - Automated build, testing, and deployment workflows using Maven and GitHub Actions.
- **AI-Powered Document QA System (RAG Pipeline)** Feb 2026 – Present
Python, LangChain, Vector Database, REST API
 - Built APIs for document-based question answering using LangChain and vector search.
 - Developed ingestion pipelines for chunking, embeddings, indexing, and retrieval.
 - Improved response accuracy through semantic search and prompt optimization.
 - Designed a modular architecture for scalable integration with external applications.
- **Secure Full Stack E-Commerce Platform** Jan 2026 – Present
MongoDB, Express.js, React.js, Node.js, Docker, GitHub Actions
 - Developed a MERN-based e-commerce platform with product, cart, and order management.
 - Built RESTful APIs for authentication, inventory management, and order processing.
 - Implemented JWT-based authentication and role-based access control.
 - Automated CI/CD workflows using Docker and GitHub Actions while applying security best practices.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, SQL
- **Backend Development:** Java, Spring Boot, Node.js, Express.js, REST API Development, Authentication & Authorization
- **Frontend Basics:** React.js, HTML, CSS
- **Databases:** MongoDB, MySQL, Vector Databases
- **DevOps & Tools:** Git, GitHub Actions, Docker, Postman
- **Cloud & Deployment:** AWS Basics, Containerized Deployment
- **Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **GenAI Concepts:** RAG, LangChain, Embeddings, Semantic Search

ACHIEVEMENTS

- Solved 400+ DSA problems on LeetCode, strengthening problem-solving and algorithmic thinking skills

SOFT SKILLS

- Problem Solving and Analytical Thinking
- Team Collaboration and Communication
