EDUCATION

GLA University, Mathura

B.Tech in Computer Science and Engineering – AI/ML and IoT • CGPA: 7.38/10.00

Aug 2023 – May 2027

Shriji Baba Saraswati Vidya Mandir, Mathura

Intermediate, CBSE • 76.5%

Apr 2021 – Mar 2023

Shriji Baba Saraswati Vidya Mandir, Mathura

High School, CBSE • 86%

Apr 2019 – Mar 2021

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL

Web Technologies: React, Node.js, Express.js, HTML, CSS, Flexbox, CSS Grid

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Linux, AWS

Core Competencies: Data Structures & Algorithms, OOP, Computer Vision, Deep Learning, Machine Learning, CI/CD Pipelines

EXPERIENCE

DevOps and Cloud Computing Trainee

GLA University, Mathura

June 2025 – July 2025

- Completed hands-on training in DevOps and Cloud Computing fundamentals covering development to deployment workflows.
- Worked with version control, automation, and CI/CD deployment pipelines using Git and Linux environments.
- Gained exposure to AWS cloud services and infrastructure automation concepts.

Data Analyst

SkillCred, Remote

July 2024

- Conducted cohort analysis to evaluate customer retention and engagement trends for a streaming platform.
- Analyzed Customer Lifetime Value (CLV) across cohorts to identify high-value and high-churn user groups.
- Delivered actionable insights on user behavior to improve retention strategy.

PROJECTS

Traffic Violation Model | Python, YOLOv8, EasyOCR, OpenCV, PyTorch | github.com/shivanshs3104/Traffic-violation-model

- Built a computer vision-based traffic monitoring system for real-time violation detection using YOLOv8 and number plate recognition with EasyOCR.
- Implemented video processing pipeline in Python using OpenCV and PyTorch for efficient frame analysis.
- Achieved 85–90% detection accuracy on test video datasets and reduced manual traffic monitoring workload by 70%.

Amazon Clone | HTML, CSS, JavaScript, Flexbox, CSS Grid | github.com/shivanshs3104/Amazon-Clone

- Developed responsive frontend clone of Amazon e-commerce website replicating homepage, product listings, and navigation.
- Implemented modern layout techniques using Flexbox and CSS Grid for cross-device compatibility.
- Focused on pixel-perfect UI replication and responsive design principles.

CERTIFICATIONS

- Data Analyst – SkillCred, July 2024
- DevOps and Cloud Computing – GLA University, July 2025
