EDUCATION

GLA University <i>B.Tech Computer Science (AIML & IoT) — CGPA: 8.9</i>	Mathura, India 2023 – Present
St. Conrad's Inter College <i>Intermediate — 92%</i>	Agra, India 2023
St. Conrad's Inter College <i>High School — 95%</i>	Agra, India 2021

PROJECTS

E-commerce Website <i>Node.js, Express, MongoDB</i> - Built scalable e-commerce platform with authentication and CRUD workflows. - Developed REST APIs and optimized backend database performance. - Implemented secure session handling and modular architecture.	2025
Face Recognition Attendance System <i>OpenCV, SQLite</i> - Automated attendance pipeline improving efficiency by 70%. - Live demo: face-attendance-system-seven.vercel.app	2025
AI Game Level Generator <i>Python, AI Algorithms</i> - Developed procedural AI-driven level generation system. - Live demo: Project Link	2025

ACHIEVEMENTS & CERTIFICATIONS

Recognized as a **Google Arcade Champion 2025**.

Successfully completed **Google Cloud Study Jam** focused on cloud technologies and AI.

Solved **1000+ DSA problems** across coding platforms using Java.

Maintained an academic **CGPA of 8.9/10** in B.Tech CSE (AIML & IoT).

Built multiple full-stack and AI-driven applications with real-world use cases.

TECHNICAL SKILLS

Languages: Java (DSA & OOP), Python, SQL, JavaScript, HTML, CSS
Frameworks: Node.js, Express.js, Flask, REST APIs
Databases: MongoDB, MSSql Server
Data Analytics: MS Excel, Power BI, Pandas, Matplotlib
AI & Machine Learning: Machine Learning, Deep Learning, Generative AI
Developer Tools: Git, Linux, VS Code, IntelliJ IDEA, Eclipse
Libraries: OpenCV, Standard Java Libraries

CODING PROFILES

LeetCode: Solved 1000+ DSA problems in Java and regularly practice algorithmic problem solving.

Codeforces: Active competitive programmer with strong foundation in Data Structures, Algorithms, and problem solving.

Proficient in Object-Oriented Programming, SQL, and algorithmic optimization techniques.

INTERESTS

Cricket, Badminton, Competitive Programming, AI Research, Problem Solving.
