EDUCATION

B.Tech Computer Science (AIML)

GLA University, Mathura, CPI : 8.79

2024 - Present

Intermediate (CBSE)

Angel Public School, Chhata, Percentage : 89.2%

2024

High School (CBSE)

Angel Public School, Chhata, Percentage : 91.2%

2022

TECHNICAL SKILLS

Programming Languages : Python, Java, C, SQL, Bash (Shell Scripting)

Artificial Intelligence & Machine Learning : Scikit-learn, TinyML, Edge Impulse, Computer Vision, Model Training, Model Evaluation, Feature Engineering

Robotics & Embedded Systems : Arduino, Raspberry Pi, NVIDIA Jetson Nano, Sensor Integration, PID Control, Autonomous Navigation, Motor Drivers, Stepper Motors, Ultrasonic Sensors, IR Sensor Arrays

Cloud & Deployment : Microsoft Azure, Render, Vercel, Streamlit, Cloud-based Model Deployment, REST APIs, API Integration

Tools & Platforms : Git, GitHub, VS Code, Linux, Google Colab, Jupyter Notebook, Kaggle, Power BI

Software Development: Data Structures & Algorithms, Object-Oriented Programming, REST API Development, Debugging, Code Optimization

Data Analysis & Visualization : Data Cleaning, Exploratory Data Analysis (EDA), Pandas, NumPy, Data Visualization

PROJECTS

Dhruvishya–Autonomous Smart Car

- Built an autonomous robotic vehicle capable of obstacle detection and avoidance using ultrasonic sensors.
- Implemented PID-based control for navigation and stability.
- Integrated TinyML models for adaptive speed control and edge intelligence.

Project Ashwini – IoT Healthcare Monitoring System

- Built an IoT-based healthcare monitoring system to track patient vitals in real time.
- Connected sensor data pipelines with cloud dashboards for visualization.
- Designed separate interfaces for doctors and patients to monitor health metrics.

Expobot | AI-Powered Exhibition Guide Robot

- Developed an autonomous robot that detects visitors, accepts voice commands, and guides users to exhibition projects.
- Implemented AI-based person detection using Jetson Nano and OpenCV, with Arduino-based navigation and motion control.
- Integrated Arduino-based navigation and PID-controlled NEMA17 motors for smooth movement and automated project explanations during exhibitions.

EXTRACURRICULAR

- Certifications:** Microsoft Azure Fundamentals(AZ-900), Microsoft Azure AI Fundamentals(AI-900), NPTEL Software Engineering.
- Activities:** World Robotics Championship Technoxian 9.0 Participation, Organized Tech based Workshops and Sessions.
- Leaderships:** Actively involved in leading technical communities within the university, mentoring students in AI/ML model development, robotics systems, and IoT-based projects.
