

KUSHAGRA KULSHRESTHA

**AI ENGINEER | MACHINE LEARNING | LLMS |
COMPUTER VISION**

kushagra.kulshrestha_cs.aiml24@gla.ac.in | +91-9084696026 | [LinkedIn](#) | [GitHub](#) | [HackerRank](#) | [LeetCode](#)

Motivated AI Engineering student with hands-on experience building LLM-powered applications, RAG pipelines, and agentic AI systems. Certified in Microsoft Azure AI Fundamentals (AI-900) and Azure Fundamentals (AZ-900). Passionate about designing intelligent, production-grade solutions through independent projects and continuous learning.

TECHNICAL SKILLS

- AI/ML: Generative AI, LLMs, RAG Systems, Prompt Engineering, Embedding & Semantic Search, Model Evaluation
- Frameworks & Tools: FastAPI, React, Git, Git Bash
- Cloud: Microsoft Azure (AZ-900 & AI-900 Certified)
- Backend & DB: FastAPI, Flask, Node.js, PostgreSQL, SQLite, SQLAlchemy
- Programming: Python, Java (Intermediate); JavaScript / React (Beginner)

EDUCATION

B.TECH CS (AI & ML) — PURSUING

GLA University, Mathura

INTERMEDIATE | CBSE — 91.6% (2024)

St. Andrews Sr. Sec. School, Agra

HIGH SCHOOL | CBSE — 80.8% (2022)

St. Andrews Sr. Sec. School, Agra

CERTIFICATIONS

- Azure Fundamentals (AZ-900) — Microsoft, Jan 2025
- Azure AI Fundamentals (AI-900) — Microsoft, Dec 2025

STRENGTHS

- Fast learner — adapts quickly to new AI tools and technologies
- Hands-on builder — learns by building and experimenting
- Self-motivated — proactively upskills via certifications
- Analytical — breaks complex problems into solvable steps

AREAS OF INTEREST

- Large Language Models & Agentic AI Systems
- Retrieval-Augmented Generation (RAG) Pipelines
- Full-Stack AI Application Development
- Cloud-Native Deployment (Azure, Vercel, Render)
- Prompt Engineering & LLM Workflow Orchestration

TECHNICAL PROJECTS

PAGEGENIE — AI-POWERED WEB PAGE GENERATOR

Tech: Python, FastAPI, React, Git | July – Aug 2025

- Engineered an AI-powered static web page generator that autonomously plans website layouts and generates clean, responsive HTML/CSS/JS code based on user inputs — eliminating manual scaffolding entirely.
- Reduced web development time significantly by automating layout planning and code generation — making site building faster and more accessible for individuals and small businesses.

IMPACT-AI — INTELLIGENT CONTENT CREATION PLATFORM

Tech: Python, FastAPI, React, Git | July – Aug 2025

- Developed an agentic AI content creation platform that understands user requirements, dynamically selects tools, fetches real-time data, and generates high-quality multi-modal content (text + images) for blogs and social media.
- Validates and refines outputs automatically, delivering polished, publish-ready content — reducing manual effort and improving productivity for content creators.

SPENDOS — AI-DRIVEN SMART PROCUREMENT PLATFORM

Tech: Python, FastAPI, LangGraph, LangChain, Groq LLM, React, Tailwind CSS, PostgreSQL

- Built a full-stack AI procurement intelligence platform using LangGraph workflow orchestration and Groq LLM to automatically analyze, score, and rank vendors — generating dynamic executive summaries and supply chain risk reports.
- Delivered real-time analytics via a glassmorphism-styled React dashboard with full audit trails for all LLM-driven decisions; deployed on Vercel with Render Blueprints for one-click cloud setup.

CAREER OBJECTIVE

To contribute to AI and machine learning projects by applying strong analytical skills, algorithmic knowledge, and modern techniques — while growing within a research-focused, technology-driven environment that values continuous innovation and real-world impact.

ADDITIONAL PROJECTS

ORION — SELF-TEACHING AI APPLICATION

Tech: C, Python

- Developed a self-teaching AI application that autonomously acquires and refines knowledge over time, exploring adaptive learning algorithms and memory-based reasoning techniques.

AMAZON CLONE — E-COMMERCE FRONTEND

Tech: HTML, CSS, JavaScript

- Built a pixel-accurate Amazon storefront clone with a fully responsive product listing, cart UI, and navigation bar — demonstrating strong frontend fundamentals and attention to UI detail.

ACHIEVEMENTS & ACTIVITIES

Training & Coursework:

- Bridgelabz Java & Full-Stack Training — intensive industry-oriented program covering Java, data structures, and full-stack development best practices
- Microsoft Azure AI Fundamentals (AI-900) & Azure Fundamentals (AZ-900) — actively completed while pursuing B.Tech
