PROFESSIONAL SUMMARY

B.Tech Computer Science (AI & ML) student with experience in Python, AI systems, and cloud-based applications. Skilled in building autonomous systems, data-driven applications, and scalable software solutions. Passionate about applying software engineering and machine learning to solve real-world problems.

EDUCATION

B.Tech Computer Science (AIML) GLA University, Mathura CPI: 8.75	2024 – Present
Intermediate (CBSE) St. Andrew's Public School Percentage: 94.2%	2024
High School (CBSE) St. Andrew's Public School Percentage: 90.2%	2022

TECHNICAL SKILLS

Programming Languages: Python, Java, C

AI & ML: Scikit-learn, LangChain, LangGraph, FastMCP

Cloud & Deployment: Microsoft Azure, Render, Vercel, Streamlit, Hugging Face Spaces

Database: MySQL, MongoDB, Firebase

Version Control: Git

Software Development: DSA, OOP, REST API Development

PROJECTS

- **SarvSaathi** | *React, Django REST Framework, Firebase, LangChain, LangGraph*
Full-stack AI-powered healthcare platform enabling patients to book online/in-clinic appointments with PayPal payments, manage family health records, and receive AI-driven symptom guidance (Cohere AI). Includes a conversational chatbot built with LangChain & LangGraph for natural-language doctor search, an emergency geo-matching system, and real-time notifications via SMS, WhatsApp, and Email.
- **NetRika AI** | *React, Django REST Framework, Azure OpenAI GPT-4o, Azure Speech Services, PostgreSQL*
AI-powered accessibility tool (Digital Sarathi) built for the AI Summit (Human Capital theme). Helps non-tech-savvy users navigate government portals and fill forms using voice interaction in regional languages, bridging the digital divide.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure AI Fundamentals (AI-900)

EXTRA-CURRICULAR ACTIVITIES

- Won ₹20,000 cash prize at Proj-Ex, GLA University for developing Ashwini — an IoT-ready full-stack healthcare management platform with multi-portal support, RBAC, and Azure AI-powered medical report analysis.
- Selected as a finalist at HealthHack Hackathon (VIT Bhopal), competing among top teams with the SarvSaathi Healthcare Platform featuring AI-driven diagnostics.
