Key Achievements

Microsoft AZ-900 (Azure)

Earned certification demonstrating foundational knowledge of cloud computing concepts and Microsoft Azure services, including core solutions, security, pricing, and support. Showcases understanding of cloud models and the ability to work with Azure-based environments.

Microsoft AI-900 (AI)

Earned certification validating foundational knowledge of Artificial Intelligence concepts and Microsoft Azure AI services, including machine learning, computer vision, NLP, and responsible AI principles. Demonstrates understanding of AI workloads and their practical applications.

Infosys Springboard (HTML5)

Completed certification in C programming through Infosys Springboard, gaining strong fundamentals in programming concepts such as data types, control structures, functions, and problem-solving techniques.

Skills

Python • JAVA • HTML5 • CSS • JavaScript • MySQL • DBMS • Machine Learning Basics

Deployment Tools: Github • Vercel • Netlify • Microsoft Azure • Docker

Projects

Smart Factory Safety Helmet

An IoT-based safety system designed for factory workers. It helps improve worker safety by using sensors to detect accidents, harmful gases, and unsafe conditions, while sending real-time alerts for quick response.

- Successfully developed a Smart Factory Safety Helmet for real-time worker safety monitoring and emergency alerts.
