

Aditya Yadav

Agra, Uttar Pradesh | developer.adi123@gmail.com | +917983715237

AI/ML enthusiast with experience in machine learning, cloud computing. Worked on real-world projects involving healthcare, smart city solutions, and environmental monitoring. Skilled in Python, Java, AWS, and data analysis.

Education

GLA University, Mathura

Sept 2022 – May 2026

B.Tech in Computer Science with Specialization in Artificial Intelligence and Machine Learning

Technical Skills

-
- Languages - Python, Java , SQL , HTML, CSS
 - AWS (EC2, S3, RDS, IAM, VPC)
 - Tools - Git / Github

Experience

AWS Cloud Computing – JOVAC Training Program

July 2024–August 2024

GLA UNIVERSITY , MATHURA

- AWS Cloud Computing Intern
- Worked with EC2, S3, IAM, VPC, and RDS.
- Performed cloud deployment and infrastructure management tasks.

AIML INTERN

September 2024 -December 2024

ShadowFox E-Learnings - Chennai(Remote)

- Worked on AI/ML projects under mentor guidance and delivered a final project presentation.

Projects

Mental Health Monitoring System (RAG)

-
- Developed an AI-powered mental health assistant using Retrieval-Augmented Generation (RAG).
 - Integrated NLP and sentiment analysis to detect stress patterns from user interactions.
 - Built a personalized recommendation engine for mental wellness support.
 - Technologies: Python, LangChain, Vector Database, LLM APIs.

Sentiment Analysis System

- Created a sentiment classifier to determine positive, negative, or neutral sentiment from text data.
- Utilized Python, NLTK, and machine learning algorithms for accurate classification.

Achievements

-
- Selected by Cognizant through campus recruitment for the Programmer Analyst Trainee role (LOI received).
 - Selected for Smart India Hackathon 2024
 - Represented GLA University at HackData25.
 - Coordinated Hackathon at GLA University during Tech Navya 2025.
