EDUCATION

Bachelor of Technology in Computer Science (AIML), GLA University, Mathura, 83%

June 2026

Intermediate, Air Force School, Agra, 85.6%

March 2022

High School, Air Force School, Agra, 92%

March 2020

INTERNSHIP EXPERIENCE

Alpha Innovation:

- Selected for a two-month Machine Learning internship at Alpha Innovation Pvt. Ltd., Bengaluru, starting October 2025.
- Engaged in applying ML concepts to support innovative projects aligned with the company's vision.

Job Oriented Value-Added Course, GLA University, Mathura:

June 2024 – July 2024

Project: AI-Powered Autonomous Virtual Research Assistant (AVRA)

- The tech stacks used for this project are MERN Stack.
- Designed and developed an AI-driven virtual assistant, that integrates advanced search capabilities and contextual understanding to streamline user access to information from diverse sources.
- Focused on delivering accurate and relevant data in a unified platform, enhancing productivity and simplifying research workflows.

PROJECTS

E-commerce Chatbot using Gemini GenAI API

- Built a production-ready E-commerce chatbot using Google Gemini GenAI API, enabling intelligent product recommendations, order queries, and customer support through contextual multi-turn conversations.
- Designed a scalable backend architecture with modular prompt engineering, secure API integration, and session-based memory, deployed on AWS EC2 with a Streamlit-based interactive UI.
- Implemented advanced prompt strategies and error handling mechanisms, optimizing response accuracy, token usage, and real-time user experience.

InsightRAG

- Built a production-ready Enterprise Q&A system using Amazon Bedrock Knowledge Bases, implementing Retrieval-Augmented Generation (RAG) to deliver accurate, citation-backed answers from proprietary documents.
- Designed a semantic search pipeline with vector embeddings and LLM integration, significantly improving information retrieval accuracy and eliminating hallucinations in enterprise knowledge access.
- Developed a Streamlit-based interactive UI and deployed the solution on AWS EC2 with IAM-secured access, ensuring scalable, secure, and real-time knowledge querying.

SKILLS

Technical

Java, Python, MERN , RAG, NoSQL
Javascript, MySQL , AIML, OOPs
Render, Git, GitHub

Professional

Effective Communication Skills
Team Work, Adaptability

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- Certified in Introduction to Generative AI.
- Got 2nd rank in IBM Solvethon held on “IBM Ice Day 2024” held at GLA University, Mathura

CO-CURRICULAR ACTIVITIES

- Coordinated IBM Code Crunch (Hackathon, GLA, September, 2024).
- Participated in IBM Solvethon (IBM Ice Day, GLA).
- Completed Data Science Workshop organized by ARGMAX Business, under the guidance of Mr. Mohit Khare (CEO & Trainer).

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
