

ANURAG SHARMA

anurag.sharma_cs.aiml22@gla.ac.in +91 9818942141 Delhi linkedin Github

PROFILE

AI/ML Engineer with hands-on experience in NLP, LLMs, and machine learning model deployment. Built scalable solutions including a BERT-based resume screening system and RAG chatbot using LangChain and FAISS. Skilled in Python, REST APIs, and Flask, with basic knowledge of AWS cloud services. Passionate about building real-world AI applications and optimizing model performance.

EDUCATION

Bachelor of Technology - Computer Science & Engineering (AI & ML) GLA University, Mathura CGPA: 7.46	06/2026
Intermediate Kendriya Vidyalaya No.1, Delhi — 88.8%	2022
High School Kendriya Vidyalaya No.1, Delhi — 83.2%	2020

INTERNSHIP/TRAINING EXPERIENCE

Web DevelopmentInternInternshala	06/2024 – 08/2024
- Built responsive web interfaces using HTML, CSS, and JavaScript. - Practiced modular frontend development and reusable UI components. Gained exposure to frontend functional programming principles and user-centered design. - Developed and optimized single-page applications using React.js for three client projects across a - month internship, increasing user engagement by 18% and leveraging Redux, Webpack, and RESTful APIs to ensure component scalability and maintainability.	Remote

PROJECTS

- **Resume Screening App**
 - Developed an NLP-based resume screening system using BERT embeddings and cosine similarity to match candidate resumes with job descriptions
 - Implemented text preprocessing, feature extraction, and semantic similarity scoring for accurate candidate ranking
 - Designed a scalable pipeline to automate resume evaluation, achieving ~90% matching accuracy and reducing manual screening effort by 60%
 - Integrated the model with a Flask-based REST API for real-time resume analysis and prediction
- **RAG-based Chatbot (LLM + LangChain)**
 - Developed a Retrieval-Augmented Generation (RAG) chatbot using Llama 3, LangChain, and FAISS for document-based Q&A
 - Implemented embedding-based semantic search for efficient information retrieval
 - Built an interactive Streamlit interface for real-time querying and response generation
 - Optimized retrieval pipeline for improved response relevance and latency

SKILLS

Languages: Python, Java, JavaScript
Frameworks & Tools: React.js, Node.js, Express.js, FastAPI / Flask, REST APIs
AI/ML: NLP, LLMs, RAG Pipelines, Embeddings (BERT), LangChain
Cloud & DevOps: AWS (EC2, S3 – Basics), Git, GitHub, Docker (Basic)
Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch
Core Concepts: OOP, DBMS, Machine Learning, Deep Learning, NLP
Soft Skills: Problem-solving • Adaptability • Communication • Team Collaboration

PROFESSIONAL ACHIEVEMENTS/INSIGHTS

Web DevelopmentCertificateInternshala Trainings
IBM Workshops: PHP, Machine Learning, Natural Language Processing

CO-CURRICULAR ACTIVITIES

- Managed Sports fests In our College SRIJAN, MAITREE, and SPARDHA (GLA University Sports Fests)
Winner – SPARDHA Intra-University Sports Meet (1st Year Category): Secured 1st place, demonstrating strong discipline, competitive spirit, and team collaboration.
