Skills

- **Programming Languages:** Java, JavaScript, Python
- **Frontend Development:** HTML, CSS, React.js, Bootstrap
- **Backend Development:** Spring Boot, Node.js, Express.js, Flask
- **Databases:** MongoDB, MySQL
- **Java & Backend Technologies:** Spring Data JPA, JDBC, JWT Authentication, OAuth2, REST APIs
- **AI/Machine Learning:** LLMs, LangChain, Scikit-Learn
- **Developer Tools & Technologies:** Git, GitHub, Maven, Postman, JSON

Projects

Quantity Measurement Application (Full Stack) | [GitHub](#)

Tech Stack: Java 17, Spring Boot, React, MySQL, JPA, JWT, OAuth2, Maven, JUnit

- Developed a full-stack quantity measurement system evolving from an OOP-based unit conversion engine into a secure Spring Boot REST application with React frontend integration.
- Implemented scalable generic measurement architecture supporting length, weight, volume, and temperature operations with unit conversion, arithmetic handling, JWT authentication, and Google OAuth2 login.

AutoML Pipeline | [GitHub](#)

Tech Stack: Python, Flask, Scikit-learn, Pandas, NumPy, LangChain

- Built an **automated machine learning pipeline** that performs dataset preprocessing, trains multiple models, and evaluates performance.
- Implemented **automatic model selection and Flask-based web interface** for dataset upload and prediction.

Community Safety Mapping Application (NotOnMyWatch) | [GitHub](#)

Tech Stack: React, Node.js, Express.js, MongoDB

- Developed a **community safety reporting platform** enabling anonymous incident reporting.
- Implemented **category-based filtering and REST APIs** for efficient incident storage, retrieval, and visualization.

Experience

Full Stack Java Development Trainee, Capgemini (Training via BridgeLabz)

December 2025 – Present

- Developing full-stack applications using Java, Spring Boot, React, MySQL, and REST APIs as part of Capgemini training.
- Implemented authentication, scalable backend architecture, and microservices communication using JWT, OAuth2, Spring Data JPA, and RabbitMQ.

Full Stack Web Development Trainee, Coding Blocks

June 2024 – July 2024

- Completed training in **full-stack web development**, covering frontend fundamentals and backend integration concepts.
- Developed projects demonstrating **responsive UI design and API integration using HTML, CSS, and JavaScript**.

Website Developer Intern, Bharat Intern (Orbitor)

March 2024 – April 2024

- Developed responsive web interfaces by replicating modern streaming platform UI layouts using **HTML and CSS**.
- Implemented structured page layouts using **Flexbox and CSS styling techniques** to improve visual consistency.

Education

- | | |
|---|-----------|
| - GLA University, Mathura B. Tech (CSE) | 2022-2026 |
| - St. Joseph's Sr. Sec. School, Puranpur Intermediate | 2022 |
| - St. Joseph's Sr. Sec. School, Puranpur High School | 2020 |

Certificates

- **AI Engineer Certification** — oneRoadMap
- **Responsive Web Design** — freeCodeCamp
- **Web Development Internship Certification** — Bharat Intern (Orbitor)
