SUMMARY

Software Engineer with experience in Angular development, UI enhancement, and bug fixing for enterprise applications. Strong foundation in Data Structures, Algorithms, Full-Stack Development, and Artificial Intelligence. Skilled in Angular, React, Node.js, Java, Python, and REST APIs, with hands-on experience building scalable web and AI-powered applications.

EDUCATION

B.Tech in Computer Science Engineering (Artificial Intelligence Machine Learning) Graduating 2025
GLA University, Mathura CGPA: 7.93/10

Relevant coursework:

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript

Frontend: Angular, React, HTML, CSS, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, Django, Spring Boot

Databases: MongoDB, MySQL, SQLite, PostgreSQL

AI/ML: Machine Learning, Deep Learning, Generative AI, Agentic AI

Tools: Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

WDTs Pvt. Ltd., Gurugram, Haryana: Software Engineer Intern May 2026 – Present

- Developed and maintained Angular-based UI components for enterprise web applications.
- Diagnosed and resolved multiple UI and functional defects, improving application stability and user experience.
- Collaborated with QA and backend teams to implement enhancements, API integrations, and production bug fixes.

PROJECTS

MockMate – AI Powered Mock Interview Platform 2024 – 2025

Full-stack AI platform for conducting mock interviews and analyzing candidate emotions.

- Developed a MERN-stack application with authentication, interview scheduling, and feedback management.
- Integrated emotion recognition models using Python and Machine Learning techniques.
- Designed REST APIs and responsive user interfaces for seamless user experience.

AI Proctored Examination Platform 2025

AI-based online examination system with automated proctoring and monitoring.

- Built frontend using React and backend using Django with SQLite integration.
- Implemented AI-powered posture and activity monitoring using YOLO-based computer vision models.
- Developed secure examination workflows and real-time monitoring capabilities.

ACHIEVEMENTS

Smart India Hackathon (SIH) Finalist 2024

Selected among thousands of teams nationwide for the final round of Smart India Hackathon.

- Collaborated with a multidisciplinary team to build an innovative solution for a real-world problem statement.
- Presented the solution to industry experts and evaluators at the national level.
