Education

GLA UNIVERISTY
Computer Science with Specialization in AI/ML - B. Tech
CGPA: 7.9

Mathura, Uttar Pradesh, IND
Sep /2022 - June / 2026

Experience

Meridian Solutions Pvt. Ltd. | Azure Data and AI Intern Gurugram | August / 2025 - February / 2026

- Worked on Azure cloud infrastructure including Virtual Machines, Storage Accounts, Networking, and RBAC.
- Troubleshoot VM access issues, RDP failures, VPN connectivity, and network misconfigurations, improving system reliability.
- Supported Azure-based AI workloads and participated in debugging and performance tuning of deployed systems.
- Assisted in cloud cost optimization and billing analysis, including Reserved Instances and resource monitoring.
- Gained hands-on exposure to real-world cloud + AI integration and deployment environments.

Tata Technologies Pvt. Ltd | Website Developer Intern Gurugram | May / 2024 - July / 2024

- Built a real-time Accident Detection & Emergency Response System using geolocation tracking.
- Designed and implemented REST APIs using Node.js & Express.
- Optimized MySQL database queries for faster response and scalability.
- Collaborated in a team environment, improving communication and delivery timelines.

Skills

Programming Languages:	Java, Python, JavaScript
Libraries/Frameworks:	React.js, Angular, Node.js, Express.js, REST APIs, HTML, CSS
Tools / Platforms:	Git, GitHub, VS Code, IntelliJ IDEA, Postman, Cursor, GitHub Copilot, ChatGPT
Databases:	MySQL, MongoDB, PostgreSQL
Cloud & DevOps:	Microsoft Azure, Azure Virtual Machines, Azure Storage Accounts, Azure Networking, VPN Gateway, Azure Key Vault, Azure Backup, Azure Monitor, RBAC (Role Based Access Control), Cloud Cost Optimization
AI & ML :	Machine Learning, Deep Learning, CNN, ANN, YOLO, FaceNet, GANs, MTCNN, OpenCV, TensorFlow

Projects

AI-Mock Interview

Next.js , React , Clerk ,Gemini API

- Developed an AI-powered interview simulator with automated response evaluation.
- Implemented personalized feedback generation using LLM-based analysis.
- Focused on real-world AI application and user experience.

Delivery360 - SIH24

Flask, PostgreSQL, Python, IoT, Wearables

- Developed an IoT-enabled ecosystem to enhance delivery workforce safety, health, and efficiency.
- Designed a Smart Helmet & Band using microcontrollers for real-time collision detection, alcohol sensors & SOS triggers.
- Enabled continuous health tracking and triggered emergency protocols using GPS.

Face recognition based Search and Rescue mechanism and CSSR situations.
GANs, MTCNN, OpenCV, TensorFlow

YOLO, FaceNet,

- Built an AI system for identifying missing persons in disaster scenarios (CSSR).
- Integrated real-time detection, emotion analysis, and rescue assistance workflows.
- Applied advanced deep learning models for high accuracy detection and optimization.

Certifications

Microsoft Certified: Azure Administrator Associate - Microsoft Learn

Honors & Awards

- Smart India Hackathon 2024 Finalist Developed tech-driven solution to solve real-world problem (Team Lead).
- 3rd Place Solvathon Presentation, IBM ICE Day 2024 (GLA University)

SOFT SKILLS

- Strong problem-solving and analytical thinking
- Quick learner with high adaptability to new technologies
- Effective communication and teamwork skills
- Detail-oriented with strong understanding of AI/ML concepts and applications
