PROJECTS

Digital Empowerment Platform for Sambhav Foundation

JPMorganChase (Tech for Social)

- Engineered a full-stack platform for 100+ training centers using **Node.js, Express, and MongoDB**, enabling role-based access, real-time analytics, and centralized monitoring.
- Developed a secure **QR-based attendance system** and a rule-driven **skill assessment & job-matching engine**, improving placement tracking and reducing manual overhead.

DevJourney | Collaborative Coding Platform

Next.js, TypeScript, Tailwind CSS GitHub | Live

- Built a scalable coding platform with **real-time multi-language code execution** using **Judge0 API**, leveraging **Next.js (SSR)** and TypeScript.
- Crafted responsive, reusable UI components with **Tailwind CSS**, improving UX consistency.
- Deployed **Judge0-CE** on **Azure App Service**, ensuring high availability and reducing cold-start latency by 35%.
- Integrated AI-powered **Personalized Problem of the Day (PPOTD)** and initiated Smart Matchmaking feature.

Visitor Management System (VMS) | Secure Guest Tracking Platform

Next.js, TypeScript, NextAuth GitHub | Live

- Developed a real-time VMS with **RBAC** for Admin, Employee, and Security roles.
- Implemented modular **Check-In/Out workflows**, QR-based approvals, and automated host notifications.
- Integrated in-browser photo capture with **fallback handling** and structured logging.
- Secured authentication via **NextAuth**; followed **SRP-aligned microservices** for scalable backend.
- Designed a responsive UI with **ShadCN UI + Tailwind CSS** for consistent cross-device UX.
