EDUCATION

Bachelor of Technology in Computer Science with Specialization in Artificial Intelligence & Machine Learning.

GLA University, Mathura, 8.23 cgpa

June 2026

Intermediate, Atomic Energy Central School, Narora , 80.6%

May 2021

High School, Atomic Energy Central School, Narora, 91%

May 2019

INTERNSHIP/ TRAINING EXPERIENCE

Summer Training Program, GLA University, Mathura

June 2023 – July 2023

Piyush Khandelwal

- completed the 45 days Summer Training Program cracking competitive programming

PROJECTS

Fraud Detection in Financial Transaction

- Developed a fraud detection system for financial transactions using machine learning techniques.
- The project involved analyzing transaction data to identify patterns and anomalies indicative of fraudulent activity.
- Utilized algorithms such as decision trees and neural networks to enhance detection accuracy and minimize false positives.
- This work demonstrated expertise in data analysis, predictive modeling, and fraud prevention strategies.

Sentiment Analysis Project

- Developed a sentiment analysis model to classify user-generated content into positive, negative, and neutral categories.
- Applied text preprocessing techniques (tokenization, stopwords removal, lemmatization) to improve classification accuracy.
- Implemented VADER (rule-based) and TextBlob (lexicon-based) sentiment scorers and compared their performance.
- Built an ensemble sentiment classifier, leveraging the strengths of both models for improved reliability.
- Visualized sentiment trends and distributions using Altair for actionable insights

SKILLS

Technical

Java, SQL
Machine Learning and Artificial Intelligence

Professional

Effective Communication
Problem Solving
Team Work

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
