About Me

Recent B.Tech CSE (AI & ML) graduate with practical experience in Generative AI, LLMs, NLP, and full-stack AI application development. Skilled in Python, LangChain, Gemini, and modern AI technologies, with a strong passion for building impactful and scalable solutions.

Education

GLA University

B.Tech CSE[AIML]

2022-2026

Mathura, India

All Saints School

Intermediate

2020-2022

Agra, India

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL, HTML, CSS

Machine Learning & AI: NLP, Generative AI, RAG, Prompt Engineering, Sentiment Analysis, LLMs (Google Gemini, Mistral-7B)

Frameworks & Libraries: Streamlit, Flask, LangChain, FAISS, TensorFlow, Keras, NLTK, PyPDF2

Data & Analytics: Pandas, NumPy, Matplotlib, MySQL, Data Cleaning, EDA, Data Visualization

Tools & Platforms: Git, GitHub, Supabase, Streamlit Cloud, Netlify

Projects

JobFit AI – Applicant Tracking System | React, TypeScript, Supabase, Google GenAI, LangChain, FAISS, NLP

- Developed an AI-powered Applicant Tracking System leveraging NLP, LLMs (Google Gemini), and vector similarity search for resume optimization, job matching, interview preparation, and candidate ranking
- Built scalable backend infrastructure using Supabase and implemented PDF parsing, embedding generation, and semantic search pipelines for intelligent ATS scoring
- Integrated LangChain and FAISS to enable context-aware retrieval and resume-to-job similarity analysis
- Enhanced recruitment efficiency through automated candidate evaluation and relevance scoring mechanisms
- Live Demo: jobfitats.netlify.app || GitHub: github.com/satvik091/app-architect

Wisdom Weaver – AI Mental Health Assistant | Python, Streamlit, HuggingFace, Google Gemini Pro

- Developed a multimodal AI mental health assistant integrating text, speech, and emotion analysis to deliver personalized and context-aware guidance inspired by the Bhagavad Gita
- Implemented sentiment and emotion classification pipelines using LLMs and NLP techniques, achieving over 85% emotion classification accuracy
- Built adaptive response generation workflows leveraging Google Gemini Pro and prompt engineering to improve contextual relevance by 40%
- Handled 10+ real-world user interactions and designed an intuitive Streamlit interface for seamless conversational support
- GitHub: github.com/satvik091/WisdomWeaver

Experience

AI Intern

Bodhitva AI Inc.

Feb 2025

Remote

- Engineered responsible AI safety guardrails for an AI-powered interview platform using Guardrails.ai and AgentOps.ai
- Designed structured validation workflows to enforce topical relevance, policy compliance, and contextual accuracy in LLM responses
- Improved AI reliability by reducing unsafe, hallucinated, and off-topic outputs through automated validation pipelines

Trainee

Job Oriented Value Added Course (JOVAC), GLA University

Jun 2024

Mathura

- Built foundational expertise in Automated Document Understanding, Streamlit, and Large Language Models through hands-on projects
- Developed and deployed JobFit AI, an Applicant Tracking System using Streamlit and Google Gemini API integration
- Implemented intelligent resume-to-job matching algorithms to improve candidate relevance scoring and screening efficiency

Achievements & Certifications

Hugging Face – Fundamentals of MCP (2025): Completed Unit 1 covering foundational model concepts and AI workflows

Data Analyst Certification, One Roadmap (2025): Cleared skill assessment demonstrating proficiency in data analytics and business insights

Data Science Workshop, Argmax Business (2025): Completed hands-on training in core data science concepts and practical applications

Leadership & Community Involvement

Open Source Contributor, SSoC'25 & OSCI'25: Contributed features, bug fixes, code reviews, and documentation improvements across open-source projects while collaborating with maintainers and contributors

Campus Ambassador & Project Admin, GSSoC'25: Promoted open-source participation through community outreach, contributor onboarding, project management, issue tracking, and pull request reviews
