EDUCATION

Bachelor of Technology in Computer Science Specialization in Artificial intelligence and Machine Learning

GLA University, Mathura, 78.8

June 2026

Intermediate , RSM Public School, Supaul , Bihar , 81.4%

May 2022

High School , RSM Public School, Supaul , Bihar, 84.5%

May 2020

INTERNSHIP/ TRAINING EXPERIENCE

Job Oriented Value Added Course, GLA University, Mathura in collaboration with Coding Blocks Private Limited

Jun 2024 –Aug 2024

- Completed hands-on training in DevOps and Cloud Computing, gaining practical experience with tools like AWS, CI/CD, Git , Automation.
- Post completing the training, created a Project named “Infrastructure Automation with Ansible and Terraform”, by using Ansible and Terraform.

PROJECTS

Explainable AI Web Interface For Healthcare

Feb 2025

- Developed an Explainable AI (XAI) web interface for healthcare, providing transparent and interpretable AI-driven insights for medical decisions.
- Tech Stack: Python, Flask, Streamlit, Keras, TensorFlow, SHAP, LIME , XGboost ,CNN.

Infrastructure Automation with Ansible and Terraform

Jul 2024

- Automated infrastructure provisioning and management using Ansible and Terraform for scalable and efficient deployment.
- Tech Stack: Ansible, Terraform, AWS, Docker, Linux, Git.

Depth Estimation Using Single Image

Mar 2024

- Implemented Depth Estimation from a single image using computer vision and deep learning techniques to infer scene depth.
- Tech Stack: Python, OpenCV, TensorFlow/Keras, NumPy, Matplotlib.

Project on Sentiment Analysis

Nov 2024

- Developed a Sentiment Analysis project leveraging NLP techniques to classify and analyze text sentiment for insights.
- Tech Stack: Python, NLTK, Scikit-learn, Pandas, Matplotlib, Colab Notebook.

Frontend of many Websites using HTML , CSS , JS and REACT

Aug 2024 – Dec 2024

- Developed responsive and interactive website frontends using HTML, CSS, JavaScript, and React for seamless user-experience.

Smart Wearable Device for Women Safety using IOT

Mar 2023

- A smart IoT-based wearable device ensuring women's safety through real-time monitoring and emergency alerts.
- Tech Stack: Arduino/ESP32, GPS Module, GSM Module, Sensors (e.g., accelerometer), C/C++, IoT Cloud Platform (e.g., Blynk/ThingSpeak), Firebase.

SKILLS

Technical Skills

- Programming Languages: Java, Python
- Data Structures & Algorithms (DSA)
- Web Development: HTML, CSS, JavaScript, React
- Database: MySQL
- Version Control: Git, GitHub
- Cloud & Tools: AWS, MS Excel
- Machine Learning
- Power BI

Soft Skills

Communication Skills
Leadership Qualities
TeamWork
Interpersonal Skills

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- 300+ Questions on LEETCODE.
- 20+ contests on LEETCODE.
- LEETCODE batches.
- Certified in Devops (cloud computing) conducted by Coding Blocks.
- Attended workshop on PHP(2022) by IBM ,Machine Learning(2023) by IBM , NLP (2023) by IBM ,MS Excel(2024) conducted by Skillcred ,Robotics (2024) by IBM , Data Mining (2024) by IBM.
- Participated in Smart India Hackathon 2023.
- IBM ICE DAY Hackathon 2024.
- SKILLCRED CERTIFICATE on Data Science.
- 7 NPTEL Elite + Silver Certificates .
- SQL Basic,Intermediate,Advanced HACKERRANK Certificates.
- INFOSYS Springboard Certificates.

CO-CURRICULAR ACTIVITIES

- Lead many events conducted by clubs.
- Participated in Tech based Poster making competition conducted by IBM.

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
