PROFILE SUMMARY

B.Tech (CS-AI/ML) graduate with hands-on experience in **AI product strategy, product operations, AI/ML Engineering and UI/UX design**. Skilled at bridging business and technology by translating stakeholder requirements into actionable insights, workflow systems, and product strategies. Strong interest in **AI-driven business systems, and data-driven decision making**. Seeking opportunities in **AI Product, AI Operations, Strategy, and ML Engineering roles**.

PROFESSIONAL EXPERIENCE

Founder's Office | *Tevatel (Nidoos Techsolutions)*

(Apr 2026 – Present)

- Designed **AI voice agent call flows** and **conversation workflows** based on client requirements and business use cases.
- Created **prompt-driven AI voice agent demos** for client presentations, testing, and solution demonstrations. Designed **AI Chatbot Workflow** for WhatsApp Business.
- Conducted **end-to-end client and investor data analysis** using Excel extracting, cleaning, and structuring 100+ contact datasets to identify high-potential leads.
- Designed **UI/UX wireframes and visual assets** for the official website and social media using Figma and Canva, improving brand consistency and user engagement.
- Mapped **client journeys and product requirement flow** through stakeholder interaction analysis, contributing to product roadmap and feature prioritization.

KEY PROJECTS

Multilingual AI Voice Sales Agent for E-Commerce

(June 2026 – Present)

- Building a **production-grade multilingual voice sales agent** (English, Hindi, Hinglish) with auto language detection, warm human-like tone — sounds like a real sales executive, not a chatbot.
- Persistent memory** - recalls purchases, product interests, objections, and conversation history for hyper-personalized pitches.
- Full **AI/ML pipeline**: intent classification, sentiment analysis, purchase intent scoring, next-best-action prediction, churn risk scoring, and product recommendation engine per conversation.
- Lead score, objections, purchase probability, recommended next action, and Streamlit analytics dashboard.

LLM-Based Agents for S&M Business Workflows | *Machine Learning*

(Jun 2024– Dec 2024)

- Built an **AI-driven decision support tool** using Large Language Models to enhance business efficiency, reducing manual data analysis time by 40% and cutting page load times by 30+ seconds.
- Implemented **multi-step agentic pipelines** with tool use, memory, and structured output parsing to handle real business queries end-to-end.

POSITIONS OF RESPONSIBILITY

Academic Mentor | *Student Mentorship Program, GLA University*

(Jul 2024 – Mar 2025)

- Guided 6 students; selected from 144 applicants. Organized counselling sessions reaching 200+ students. Received Recognition Award for empowering mentees.

Creative Head | *Literario Club, GLA University*

(Jul 2024 – Mar 2025)

- Led a team of 50+ to organize events for 20k+ students, contacted 50+ authors/artists for workshops, talks, and the annual Brij Literature Festival.

EDUCATION

B.Tech in Computer Science Engineering Specialization in AI/ML

(Aug 2022 – May 2026)

GLA University, Mathura | CPI: 7.5

SKILLS

ML/Data	Python, SQL (MySQL), Excel, Data Cleaning, Pandas, NumPy, Classification, Sentiment Analysis, Multilingual NLP
Design & Product	Figma, Canva, Adobe Premiere Pro, Wireframing, User Research, Product Requirement Docs, Miro
Business	Market Research, Competitive Analysis, Stakeholder Management, Pitch Decks, Go-To-Market Strategy
Software	Microsoft Office, WordPress, HTML

ACHIEVEMENTS & CERTIFICATIONS

- 1st Position — Poster Presentation, IBM | 1st Position — Inter-School Writing Contest
- Volunteered in Blood Donation Drive (Indian Red Cross & NSS) — collected 330+ units
